PLAZA NEWS

Tropical Holdings Ladyville Ltd. (THL) Construction Division is committed to giving back to our community. This summer, they had the privilege of partnering with Ladyville Technical High School in their On-the-Job Training/Internship Program, where they welcomed four outstanding and promising students: Everett Bood, Terahhn Martinez, Herson Benitez, and Neah Williams.

These students gained valuable hands-on experience within a professional environment, applying the knowledge they've acquired in school to real-world settings.

At THL, we strongly believe that the key to building Belize's future economy lies in nurturing the talents of the younger generation. We are proud to play a role in shaping tomorrow's leaders and professionals. Contact us today to explore a career with THL today!
